Young Riders on the Maine State Pier & Ed Govoni, owner of Breaking New Grounds proudly displays the TBS Winter 2008 Best Cocoa Award.

48 Participants 12 Girls 36 Boys

Following the established winter participation patterns, our Younger Riders Group rallied to out-perform both the Intermediate and Older Riders. Through both thaw and cold, the hardy band embodies the enthusiasm of childhood. While their rides are shorter, they still take credit for the majority of January's 271 miles. The teens will emerge from hibernation as the weather warms bringing back higher monthly mileage totals and the faster paced rides that occasionally make me feel like I'm at work!
