November 2007

E-mail thebikeshop1@yahoo.com

An Older Rider serves as guide for the Younger Group.

100 Participants 23 Girls 77 Boys

That Older Rider above ^ is none other than the reigning Hillclimb champion, David who shaved the record time down to a very skinny 00:23! Next to him is the "5 to 8 year old" champion, Machar who set the standard among his age mates with a never before achieved (at this tender age) 00:46. November has cooled the air but not the enthusiasm among our Younger Riders. Big tires, balaclavas and neoprene gloves (which make your hands smell just like your feet) were broken out and will be weekly attire for the next few months.
