The Bike Shop re-opened in the second week of October; and, the bikes came in for repair! With cutbacks in school busing more Portland Children are using their bikes to get to school -- and that's a good thing. But a couple of weeks without the Shop and there are flats to fix, wheels to true, brake pads to replace, etc. Rain has pushed our Halloween Hillclimb into November for the second year running. A half-dozen riders warmed up none-the-less getting ready for the following weekend.
