Repairs occur daily at the Shop and often none-too-soon!

August 2011 51 Participants 14 Girls 37 Boys

On a recent Saturday morning ride, the Younger Riders stopped into the Mindport Museum in downtown Bellingham. One avid participant stopped just past the entrance and stared in amazement at a complicated machine that she had never seen before. Experimenting, she learned how it worked: how to move the various levers that made the contraption function. Captivated, she kept returning to this one amazing device. While other children were drawn by more colorful displays, this child recognized that here was something truly wonderful: a machine that she could manipulate to reveal her thoughts to others, *a typewriter!* -- like a bike, magically mechanical.

TBS is always looking for used bikes,
parts, and gear!
